

ACCELERATED GENETICS CAREER OPPORTUNITIES

Accelerated Genetics is a global provider of bovine genetics and research, reproductive services, and solution-based animal health products. Accelerated Genetics is a farmer-owned cooperative based in Baraboo and Westby, Wisconsin.

Join Accelerated Genetics team of professionally trained reproductive experts and dairy and beef specialists. With the belief that "Innovation Breeds Excellence[®]", Accelerated Genetics vision is to be the forerunner in developing innovative technologies and exceptional services that will aid customers in achieving their ultimate herd goals.

Qualified applicants may send a cover letter and resume to Accelerated Genetics, Attn: Human Resources, E10890 Penny Lane, Baraboo, WI 53913, email to: dwilson@accelgen.com or call 1.800.451.9275.

MEMBERSHIP SALES REPRESENTATIVE (MSR) OR DISTRICT SALES MANAGER (DSM)

Whether an MSR or DSM, both positions sell bovine semen directly to producers who breed their own cows. Communication skills, sales ability, and an understanding of the dairy and/or beef industries will ensure success. Additionally, knowledge of Accelerated Genetics programs and services will be of added benefit.

MSR Area ~ Accelerated Genetics is a dominant force in its membership area of Northern Illinois, Iowa, Minnesota and Wisconsin. MSR's will service various counties within these states.

DSM Area ~ Accelerated Genetics' expanding U.S. markets continue to grow at a rapid pace. A DSM's territory will encompass large portions of any given state.

PROFESSIONAL A.I. TECHNICIAN

If you are a self-starter, enjoy working with cattle, and interested in managing your own business area, an expanding opportunity awaits you as a Professional A.I. Technician. Backed by leading sires, high-quality farm products and excellent programs and services, you will function as a professional salesperson. You will be responsible for breeding cattle, record keeping, and offering a variety of reproductive assistance and consulting.

HERD ANALYST

Through Accelerated Genetics' GEMpc on-farm computer mating program, skilled herd analysts mate dairy cows to magnify individual strengths and eliminate weaknesses. As a Herd Analyst, you need to thoroughly understand the fundamental basics of animal genetics and type characteristics. Also, you should excel in public relations, be knowledgeable of computer basics and possess the ability to sell a herd-improvement program.

REGIONAL MARKETING COORDINATOR

In this position, you will work closely with the Area Director of Marketing to coordinate regional activities, meetings and scheduling time off. In addition to providing some relief A.I. breeding, you will be responsible for training both employees and customers how to artificially inseminate cattle as well as work with the regions employees to implement company programs.

REGIONAL ASSISTANT

As a Regional Assistant, you will provide support services, such as relief A.I. breeding for Professional A.I. Technicians. In this entry level position, you will become familiar with the sires, animal health products and services offered by Accelerated Genetics. As you become more experienced with the company's programs, services, and personnel, you will have the opportunity to advance into other positions.

AREA DIRECTOR OF MARKETING (ADM)

The Area Director of Marketing plans, develops, and directs all sales and service activities of the professional sales and reproductive team. As an ADM, you will be responsible for analyzing existing markets as well as developing new markets for Accelerated Genetics. You must be imaginative and innovative, plus possess the management skills to plan, organize, train, supervise and motivate employees.
