

Accelerated Genetics®

SOP®

Bio-hygienization of
barns and improved management of
liquid and composted manure.

Bi-o-hy-gien-i-za-tion

(bi-oh-**hi**-jen-i-za-shun) – n.

A biological conditioning or practice conducive to the preservation of health and cleanliness. Origin: 2006; from **biology** (“the science of life”) + **hygiene** (“healthy”)

See also, **SOP**

The solution right at hand

The exciting proven technology for the improvement of dairy cattle and calf environments. Formulated for use in bedding packs, compost barns, free stalls, slatted or scraped barns and calf housing.

Environmentally Safe

- ~ SOP® is **NOT** a disinfectant, enzyme or bacteria product.
- ~ SOP® is a **NATURAL** product, ideal for use in organic herds*.

Easy To Use

- ~ Applied as a dry powder in the barn using a special backpack applicator.
- ~ Requires little labor and no special handling.

ONLY ONCE A WEEK!

SOP® products work by a bio-conditioning process aimed at inhibiting pathogenic micro-organisms and stimulating beneficial micro-organisms.

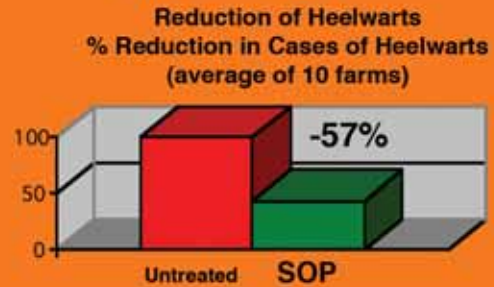

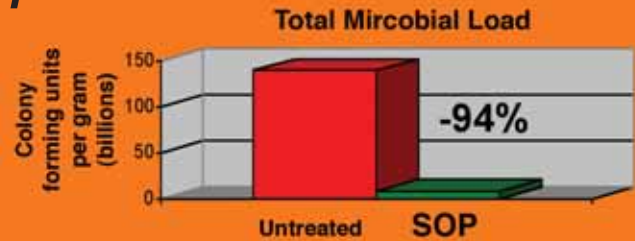

*(*Consult your organic certification association prior to use.)*

HEALTH > COMFO

Animal Hygiene & Health

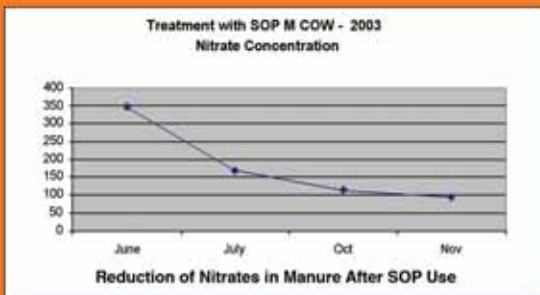

- Reduces environmental mastitis
- Reduces hairy heelwarts
- Reduces calf scours
- Reduces hoof problems

Animal Comfort & Well-being

- Drier bedding
- Cleaner animals
- Less flies
- Less ammonia odor in the barn

Manure Management

- Decreases lagoon agitation time
- Reduces nitrates
- Less odor when spreading
- Reduction of surface crust & sediments

ENVIRONMENT

Reduction of Surface Crust and Sediments

~ More consistent and fluid manure

"Since we started using SOP[®], we've noticed less odor while agitating our manure and in the field after spreading. The manure is a nice consistency. We are very happy with this product and plan to continue using it." ~ Tom Heinze, Portage, WI

"Since I've been using SOP[®] my Somatic Cell Count has dropped in half compared to last year. The bedding is drier and my cows have less hoof problems. I wish I would've started on SOP[®] sooner. It has already paid for itself several times over!" ~ Lyle Guralski, Athens, WI

"Our technician introduced us to SOP[®] and we are very pleased. We've been looking for something that would combat hairy heel warts without using a foot bath. The solution was SOP[®]. Besides the results we've seen in the health of our animals, we've also noticed less flies and odor in our free stall barn."

~ Ed & Jerry Nowobielski, Thorp, WI
