

CAPSULE FORM

# TRI-PURIFY

*Dietary feed supplement for pre-weaned calves.*

## FEATURES

- Provides pure, natural essential oils selected specifically for the pre-weaned calf.
- Combines live natural occurring micro-organisms: *Bacillus licheniformis* and *Bacillus subtilis* fermentation products, which enhance the environment of the digestive tract.
- Nutraceuticals: mannan oligosaccharides (MOS) a fermentable carbohydrate for bacteria in the lower digestive tract.
- Utilizes state-of-the-art packaging with low moisture carrier and moisture scavengers to ensure live and viable bacteria.
- Contains intestinal bacteria and live cell yeast.
- Field tested.

## BENEFITS

- Pure and natural essential oils have strong antibacterial effects, which improve the natural immune system.
- Reduces the severity and occurrence of scours.
- Guaranteed live product with 12-month shelf life.
- Contains live cell yeast shown to improve average daily gain and promote gastrointestinal microflora.
- Increases enzyme activity resulting in improved average daily gain, improved starter intake and feed efficiency.
- Contains fermentation metabolites: hydrolyzed yeast, yeast extract and yeast culture shown to improve animal performance as well as improve intestinal microflora.

## APPLICATION

Administer 1 bolus capsule -

- At 3 days of age.
- Upon receipt of incoming calves.
- During periods of or after digestive upsets/dyspepsia (scours).  
In severe case repeat after 24 hours if needed.

Precaution -

Tri-Purify is a nutraceutical and direct fed microbial to be administered at specific times or as needed for digestive upsets. Tri-Purify is not intended for continuous use. For best results, administer after fluid or feed intakes. Tri-Purify should not be administered before three days of age.
